## Son Murders Millionaire

### AGED FATHER SLAIN IN HOME

Demented Offspring Fires 7 Shots Into Parent's Body

Gives No Reason for the Slaying; Had Been Acting Strangely

NEW YORK, May 5.—Hiram Dur-  
ey, 81, retired millionaire starch  
manufacturer and civil war veteran,  
was murdered here early today at his  
home in the Bay Ridge section of  
Brooklyn by his son, Chester Duryea.  
Seven shots were fired by the son  
into his father's body, causing instant  
death.

The murder occurred on the porch  
at the rear of the Duryea home, where  
both father and son were in the habit  
of sleeping. About 1 o'clock this  
morning Chester, who is 43 years old,  
slipped from his cot into the house,  
where he kept a number of rifles,  
revolvers and shotguns for hunting  
purposes. He selected an automatic  
pistol and a magazine rifle, both of  
which he loaded and returned to the  
open air porch. Standing within a  
few feet of his sleeping father he  
first fired from the rifle and then  
emptied the revolver.

#### GIVES NO REASON.

Chester Duryea would give no reason  
for killing his father when taken  
into custody. For the past few days,  
servants told the police, he had been  
acting strangely and they had feared  
a return of a previous breakdown.  
In 1904, when he showed signs of  
mental trouble, his father sought to  
have him removed to Bellevue Hospital  
for observation, but as he was  
not violent this request was refused.

At the outbreak of the civil war  
Hiram Duryea organized the Duryea

squadron and became its colonel. He  
served throughout the war, retiring  
at its close with the rank of brigadier

general.

General Duryea's father was found-  
er of the National Starch Company

and the general succeeded to the pres-  
idency of the company. The general

retired from active business life some

time ago.

#### HAD DOMESTIC TROUBLE.

Chester Duryea was admitted to  
practice law and had intended to  
take up the legal business of the  
starch company, of which his father  
was the head. Domestic troubles that  
culminated in his being divorced by  
his wife in 1908 discouraged him in  
this ambition, friends explained.

For some time Chester Duryea has  
spent much time at home and after  
the shooting it was found that he had  
been engaged in writing a pile of  
manuscripts, the result of his work,  
being taken by the police for exam-  
ination for a possible reason for his  
act.

Although servants said that there  
had been no quarrel between General

### Have You an Idea For New City Seal?

A contest will soon be held by the  
city to secure a design for a new  
seal for the city. This was announced  
by Mayor Mott today. The details  
will be worked out in the near future.

"Our old seal is ugly and out of date," declared the mayor, "and I would like to see a new one adopted as soon as possible."

"Yes," said Beagle, "we have

been talking about it for five years. It's about time we did something."

A committee will be appointed to  
handle the contest.

killed.

### GARDEN CITY ARMY SWELLS THOUSAND RECRUITS DAILY

Schools Organize New Regiments of Planters' Brigade

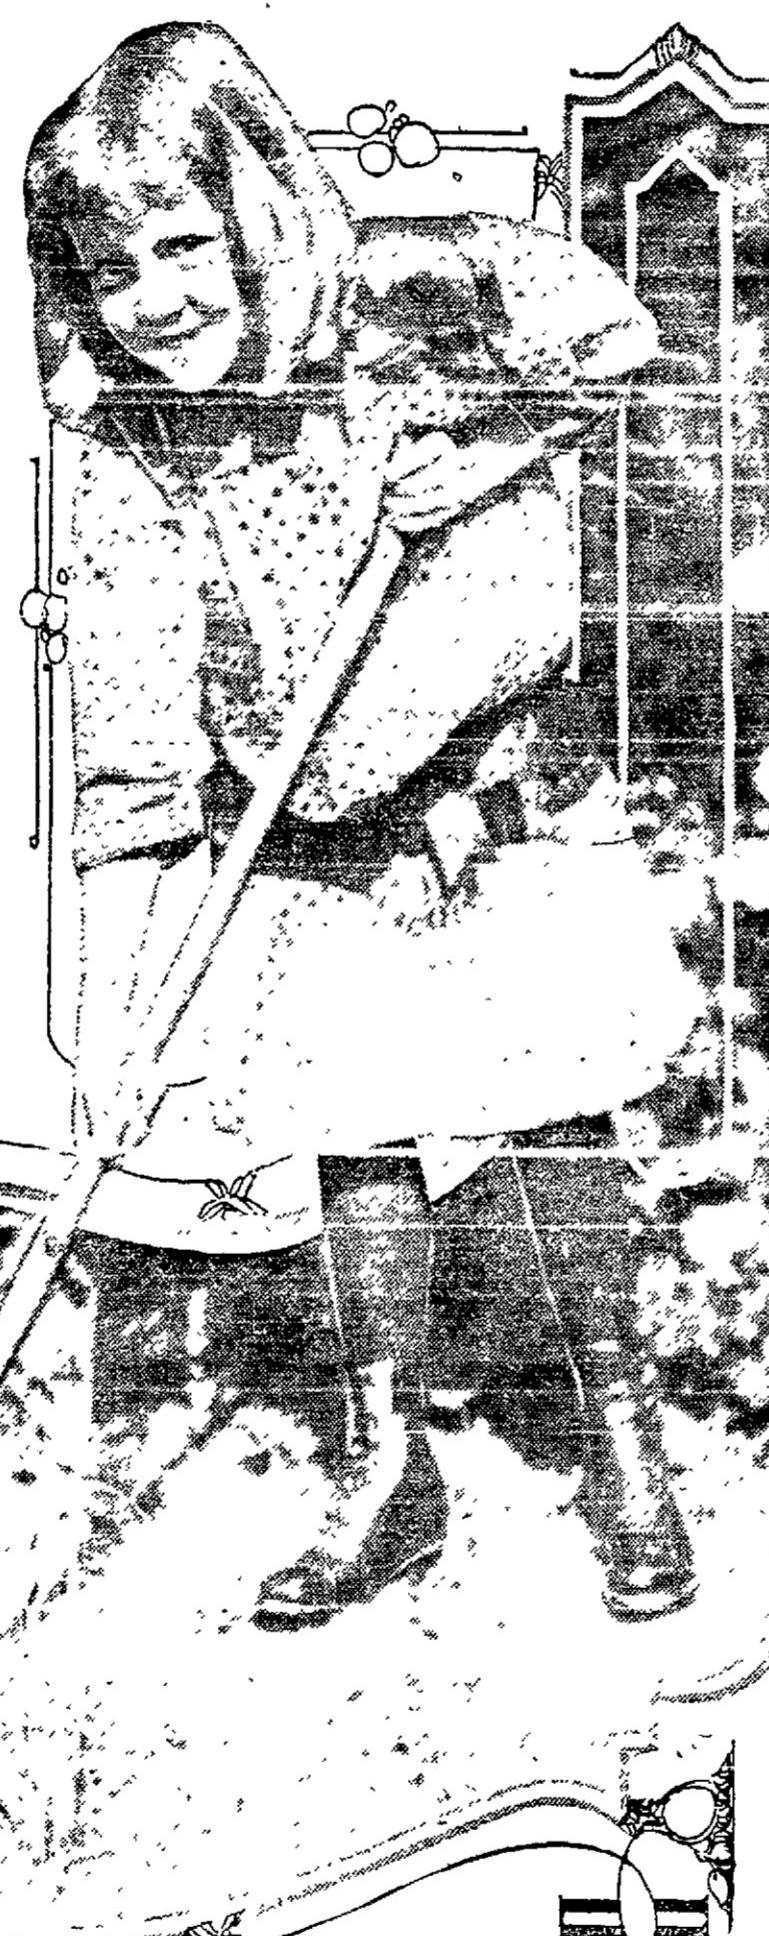

Olive Branch Is Made Insignia of Conquering Force

The school children of Oakland are organizing as Garden Soldiers at the rate of more than 1000 a day, according to Frank Peirce, their recruiting officer, setting under direction of a general committee formed of representatives of various civic organizations of which Miss Jessie Wood is chairman.

"The enthusiastic way in which the children are taking hold is assurance that they will lead the way in beautification of the city for 1915," said Peirce today.

The girls and boys of each class have a captain and under officers. Their first work is beautification of the ground around their homes. The rallying cry of the Garden Soldiers is "We Conquer the Earth." Their symbol is the olive branch and their forward call is "Oakland Beautiful, 1915."

Hortense K. Ormsby, aged six years, is a busy worker in the ranks of the garden soldiers, enlisting when the first call to arms was sounded.

Great Britain to Reconsider Decision Not to Participate.

LONDON, May 5.—The British govern-  
ment will reconsider its decision not to  
participate in the Panama-Pacific Ex-  
position at San Francisco and it probably  
will decide that Great Britain shall  
officially be represented at the fair in a  
distinctly modified form.

Premier Asquith received a deputation  
from the House of Commons today repre-  
senting more than half the member-  
ship, and promised to submit their views  
to the cabinet.

The suggestion of the deputation was  
that the British government erect a  
special government pavilion which would  
serve as a rallying point for British sub-  
jects from all parts of the empire. Mr.  
Asquith intimated this proposal, which  
would be in the nature of a compen-  
satory acceptance of the invitation to par-  
ticipate without committing the govern-  
ment to much expenditure would com-  
mand itself to the cabinet ministers.

### ROB HOUSE AND SET FIRE

Incendiary Thieves Are Responsible for Berk-  
ley Crime

Home Is Looted of Valuables and Mysterious  
Flames Break Out

BERKELEY, May 5.—Mysterious  
flames broke out in the residence of  
H. E. Bennett of 1040 Sierra street,  
Thousand Oaks, last night and after  
they had been extinguished it was  
found that the residence had been  
robbed before the fire and jewelry  
stolen worth several thousand dollars.

Additional mystery concerning the  
fire lent by the fact that Saturday  
night there was also a blaze in the  
residence, which was extinguished be-  
fore serious damage was done.

Bennett is tract manager at Thousand Oaks for the George Friend Company. With his family he was away from home last evening. A girl in a neighbor's house saw the fire and alarmed her parents, who, after some difficulty, succeeded in informing the Berkeley fire department. The difficulty was due to the fact that the telephones in the Bennett and surrounding residences were out of order, a fact which is being investigated this morning in connection with other phases of the fire.

FIND HOME ROBBED.

Although the blaze was outside of  
Berkeley, the Berkeley department  
responded to the alarm with compa-

nies 4 and 5 and succeeded in hold-

ing the damage down to \$1000 de-

spite the fact that the fire was well  
under headway when they arrived. It  
was at the conclusion of their efforts  
that the Bennetts returned home and  
discovered that their residence had  
been ransacked, apparently by burg-

lars.

Notwithstanding that the children of

Edison F. Adams will receive under the  
will of Thomas Prather more than \$600,-

000, in addition to what he had given his  
brother, Samuel Prather, Adams is now

prosecuting a suit in this county against  
Samuel Prather to recover the old Pra-  
ther homestead, situated at Tenth and  
Gilbert streets, Oakland. Thomas Prather  
and Samuel Prather acquired this prop-  
erty by their hard earnings about the  
time they attained their majority, and  
made a gift of it to their mother, Thomas  
Prather, by deed dated January 9, 1897,  
transferred this property to Samuel  
Prather. Adams by this suit is seeking  
to get the property for his daughters.

WORK ON CITY HALL DELAYED BY STRIKE

The city hall, to be dedicated on

July 4, will not be finished at that

time, as was expected, and will prob-  
ably not be finished until several

weeks later. Commissioner Harry S.

Anderson announced this morning.

The big painters strike, which has as-

sumed almost national proportions, is

the cause of the delay. All mill work

for the interior, finishing of the build-

ing is ready, but this cannot be put

into place until "back painted."

We could rush right along," said

Adams. "He has, however,

completed so much work that this

would lose us money and, at any rate,

he can carry on the work after the

strike is settled. It is not the fault

of the city or of the contractor. The

strike is beyond settlement by any

individual, having been called against

the entire organization of master

painters. The contractor would settle

matters if he could and therefore out

of justice to him we cannot throw

him down."

The strike will, the city officials

have been led to believe, be settled

within a few weeks.

### SPURNS ALLIANCE WITH FEDERALS FOR AVENGING AMERICAN OCCUPATION

Declares Dictator's Supporters Provoked Intervention for Their Own Ends; Mediators Meet Obstacles

TORREON, Mex., May 4 (via El Paso, Tex., May 5).—The answer of General Francisco Villa to a request from Federal General Maas, in command at Saltillo, that Villa join the Federals in avenging the American occupation of Vera Cruz, was delivered to the Federal messengers today.

General Villa refused absolutely to ally himself or his men with the Federals and declared that the Huertistas had provoked foreign intervention for their own ends.

General Maas' letter to Villa announced that in addition to occupying Vera Cruz, the port of Salina Cruz had been seized by the United States forces April 23.

## Teach Your Child How to Be Healthy

Regular Bowel Movement From Infancy Insures Good Health in Later Years.

We cannot all start life with the advantages of money, but every child born is entitled to the heritage of good health. Through unfortunate ignorance or carelessness in the feeding of a baby its tiny stomach may become deranged. The disorder spreads to the bowels and before the mother realizes it the two chief organs on which the infant's comfort and health depend are causing trouble.

If the condition is allowed to continue grave ailments often result.

There is, however, no occasion for alarm and the sensible thing to do is to give the baby a small dose of a mild laxative-tonic. In the opinion of a

### U. S. Vessels Are Barred From Vera Cruz State Ports

WASHINGTON, May 5.—Admiral Badger reported to the Navy Department today the receipt of word from the torpedo-boat destroyer Drayton at Tuxpan, that Territorial Minister Hacienda had ordered customs officers not to clear or enter any vessels from or to American ports. This order, it was further reported, had been given to all ports in the state of Vera Cruz.

The Drayton also reported thirteen Americans had been detained against their will at Mulaitya, in the state of Puebla, about 50 miles from Tuxpan. This information was given to the British consul at Tuxpan by American refugees, who said the Mexican authorities were holding them for aiding the Americans a desire to assure their safety. The British consul wired the governor of Puebla requesting their release.

Firing continues daily at Tampico between constitutionalists and federal forces, according to a report transmitted from Admiral Mayo by Admiral

Badger today. Heavy guns were heard yesterday morning.

Admiral Badger also reports that he is forming a special service squadron under Admiral Winslow. He did not indicate what ships would be employed for this purpose. The Tacoma and the Des Moines, it was stated, would remain under Admiral Mayo at Tampico for the present.

#### HIGH TAXES IN MEXICO.

LINCOLN, Neb., May 5.—John Tully, president of the First National Bank of Crete, has called on Governor Morehead on behalf of 20 or 40 Crete people, who own lands in Mexico.

Tully says the American land owners in the vicinity have been notified that they must pay taxes on their Mexican real estate for the year 1914 and also the year 1915, the amount in each case being given in the notice.

The notices received from Mexico show that the value of the American holdings have been doubled in value by the assessing officers. They can't understand why they should pay taxes a year in advance and fear it is a plan of constitutionalists to avoid their safety.

#### CARRANZA ELIMINATED.

With the virtual elimination of the constitutionalists from proceedings aimed at a general settlement of Mexico's ills, the South American envoys today began to compose differences between Huerta and the United States government that led to the seizure of Vera Cruz. Carranza's elimination, at least for the present,

mediators, they informed him that because of his refusal to agree to a truce with Huerta they canceled their proposal that he name a representative to co-operate in mediation negotiations. Relations with the rebels were not arbitrarily broken off. The mediators left open to him the opportunity to enter the proceedings whenever he was ready to fix an armistice.

### Report Huerta Has Agreed to Resign Position

VERA CRUZ, May 5.—Refugees arriving here today from Mexico City bring conflicting reports concerning the purposes of Provisional President Huerta. Some say he has agreed to

ON BOARD U. S. S. SOUTH DAKOTA, At Sea, April 27, (via wireless to San Diego, Cal., delayed in transmission)—The entire Mexican population of Salina Cruz fled in terror when the U. S. Cruiser Denver touched at that port Tuesday, April 21, according to a story related by officers of the gunboat Annapolis, which was taken this afternoon by the South Dakota.

Believing that the warship had come to shell the town for recent anti-American demonstrations by the more excitable of the native population, those who had been most active a few days before in stirring up feelings against the Americans looking toward violence suddenly became equally active in stamping out of the city.

The Annapolis had about 16 refugees, including women and children, bound from south coast points for Mazatlan, to be placed there on vessels bound for the United States. They told of anti-American demonstrations at various places, but said none were of a serious nature, and that they had been provided with an escort of federal soldiers to the Annapolis.

The British consul, it was stated, is looking after American interests in Salina Cruz, the American consul having left.

No Shore Leave Granted Cruiser S. Dakota Men

ON BOARD U. S. S. SOUTH DAKOTA, ACAPULCO, Mexico, April 28, via wireless to San Diego, May 5 (delayed in transmission)—The arrival of the cruiser South Dakota late today was a signal for the immediate evacuation of the city by the Mexican federals. The vessel anchored in the bay at nightfall and made no attempt to send any boats ashore, so the Mexicans gained courage and returned later.

Commandante Salas of the federal garrison issued a proclamation announcing from Mexico City, offering complete amnesty to all rebels who would join the federals against the United States.

The Huertistas, headed by the military and civil officials, soon after turned their attention to the celebration of several important victories over the United States along the northern border, news of which was pretended had just reached Acapulco.

Generals Villa and Carranza had joined Huerta, so the story ran, and were marching victoriously into the United States. El Paso and Brownsville had fallen before the invading armies of the United Mexican leaders, it was said, and the Americans had lost 500 in killed at Vera Cruz.

These false tales of Mexican achievements so inflamed the minds of the populace that no shore liberty was granted on the South Dakota for fear the sight of the American uniform in the streets might lead to disorders and possible bloodshed.

#### INVITE MEDIATORS.

MONTEVIDEO, Urug., May 5.—An invitation to the mediators between the United States and Mexico to hold their conference in the city hall here was forwarded to Washington today by Mayor James Boutwell.

#### TROOPS TO EMBARK.

GALVESTON, Tex., May 5.—The Galveston water-front is humming with preparations to embark troops for Mexico. Rolls of mosquito netting will be taken to Vera Cruz to be used in keeping off the fever-breeding mosquitoes. The army aeroplanes will be sent to Vera Cruz on the transports.

#### ASK GREY TO INTERcede.

LONDON, May 5.—Foreign Secretary Grey was invited today by Sir John, David, Rees, Unionist, in the House of Commons, to ask the American government to abandon its posi-

tion of greater moment than the restoration of peace and the protection of life and industry in Mexico.

The foreign secretary declined, declar-

useful purpose for the British govern-

ment to make separate proposals on its account to Washington or

Mexico.

# CITY CAMPAIGN TO AID WATER DISTRICT

Berkeley Propaganda Will Be Officially Launched at Mass Meeting Tonight.

Increasing interest in the water district campaign has resulted in the calling of a number of meetings of which the measure will be discussed. The campaign in favor of the measure will be discussed tonight at a mass meeting at the Berkeley city hall, when the campaign for Berkeley will be officially launched. James H.

B. Sturgeon, City Engineer J. J. Jesup and others will talk.

The water district plan was explained today to the women of the Elsie Club by O. E. Hotte, a member of the Oakland Commercial Club, who has made a study of the subject. The matter will also be considered by the Oakland Merchants' Exchange tonight.

"You will hear much talk about this later," said Hotte, "but get into abstruse points of law and technical matters," declared Hotte, in speaking before the Elsie Club. Much of this talk is irrelevant, much of it is based upon meager facts or no facts and many theories.

"But the matter is not really abstract. It can be readily understood. We almost all of us believe in municipal or public ownership of certain basic things on which the welfare and life and health of the community depend. Among these is water. So much is simple."

"The machinery was put in motion over two years ago by those who believed this to make it possible of attainment. That possibility is now looming in view. The election to form the necessary district has been called for June 2.

Certain people have felt that the law did not offer the requisite protection to the people from arbitrary acts, or dishonest acts, on the part of the directorate of the proposed water district. To check all this there are certain fundamental safeguards that have been thrown around the project as a sort of bulwark. Briefly these are as follows:

The mayors have agreed to pledge their appointees to grant a reference to the voters on all matters of purchasing property. The appointees of the mayors constitute a majority of the board.

The appointees of the mayors will also be pledged to obtain a valuation of the property from the state railroad commission. The Peoples Water Company has agreed to sell its holdings on the valuation to be so fixed by the state railroad commission.

The property cannot be purchased without bonds being passed and the people will have to vote on the bonds. So that the voters have the last say in the matter and are fully protected throughout. This protection is made stronger by the general belief in the efficiency and integrity of the state railroad commission.

## AGED FATHER SLAIN BY SON

Parent is Murdered in Home by Demented Offspring.

(Continued From Page 1)

Duryea and his son before they returned for the night, an overturned table, a broken screen and books scattered about the floor of the sleeping porch led the police to believe that Chester had awakened his father and that a struggle had ensued before the shots were fired.

### BECOMES VIOLENT.

Chester Duryea became violent after being placed in a cell, and gave every evidence of insanity.

He declared he shot his father when he received a "spiritual message from George Washington" and that he had intended to take his own life.

"It was the best friend my father had and he was my best friend," said Duryea. "I loved him dearly. If he were here now he could explain the whole matter. I really don't know what I shot him."

While talking the prisoner dug his finger nails into his hands until they bled. A policeman was stationed outside the door to prevent him from injuring himself seriously.

### POSTPONE EXAMINATION.

When Duryea was arraigned he appeared more rational. He said he had no attorney, but wanted one, so the examination was postponed until Thursday morning. L. G. Duryea, his cousin, said the Duryea family had believed for some time that Chester was mentally unbalanced and had considered taking steps to place him in a sanitarium or an asylum. Chester's mental condition, said the cousin, was due to overstudy.

Two Little Girls Victims of Foul Fiend

PITTSBURG, May 5.—Florence Dove, 8 years old, and Elizabeth Klenck, aged 9, were attacked at North Braddock, a suburb, yesterday by an unidentified man who hacked the Dove child to pieces with a razor. Elizabeth Klenck is probably fatally injured. Three thousand steel workers heavily armed, are searching for the assailant.

Two suspects, on account of the threats of steel workers, were rushed to jail here.

The scene of yesterday's crime is within half a mile of the place where on Thanksgiving Day, 1912, the body of Lillian Schadie, aged 12, was found in the Fall Hollow reservoir tied in a bag.

## MARE ISLAND NOTES

MARE ISLAND, May 5.—Commandant F. M. Bonnett, U. S. N., of Mare Island, on being advised that the item of \$200,000 for continuing the dredging of Mare Island channel, which is included in the appropriation bill, will not be available immediately, stated this morning that it did not make any material difference owing to the fact that the money will be available after July 1. The dredging operations will not stop, as was feared, as there is enough fuel to keep the channel deepener at work in the straits for the next two months to come.

A letter received at the yard by Commandant F. M. Bennett, U. S. N., from Secretary of the Navy Daniels contains a tribute to the workmen employed at the local naval station on account of the excellent work performed under the unusual circumstances of the past fortnight, when vessels and marines were being rushed to Mexico.

The letter, dated April 28, said:

"The Navy Department in going over the papers pertaining to the coming Alaskan radio expedition discovered that arrangements had been made to work the men on Sunday and part of Monday and a half for their work. It is immediately issued an order dispensing with any Sunday work while the men are away on the expedition and when the order was received at the yard this morning there was great weeping and wailing and

shouting of teeth and there is a possibility that one or more of the 50 experts who have signed their intention of leaving the Alaskan station will not sail on the 'Bulldog' this afternoon as intended. Heretofore the radio men have always been paid for Sundays and the navy yard officers will endeavor to have the Secretary of the Navy change his order."

## POSSE BATTLES WITH BANDITS

• Auto Employed by Sheriff's Forces in Man Hunt at Goldfield.

**GOLDFIELD**, May 5.—Posse from towns in Inyo county, Cal., late Saturday, captured two alleged horse thieves in the mountains near the Nevada boundary, and officers are now searching for Cliff Reagan, known as "Red" Reagan, bandit and train robber, who is wanted in several states and who escaped from the posse.

Constable Nichol of Lone Pine, with William Hoops and an Indian trailer, arrived here at 2 o'clock yesterday morning after 20 hours on horseback, having lost Reagan's trail when darkness overtook them 20 miles south of

Reagan, who is reported to have stolen some horses, "chaps," and reatas at a ranch near Olancha, near Owens lake. Nichol and the posse left in an automobile and by chance intercepted the thieves when the latter started to cross the main road. When Nichol ordered them to throw up their hands, the men started to draw their revolvers, then spurred their horses and fled. The officers opened fire, shooting and killing the horses of

carried their riders for half a mile before falling. Reagan quickly cut the pack saddle from his old horse, beyond which he had sheltered himself from fire as he rode, placed on it the saddle from one of the fallen horses, and taking one of his companions by his horse, rode away from the posse, which returned to Oasis and secured horses. The pursuit was resumed and soon two of the bandits were overhauled in a small canyon. They had hidden their guns, one of which was found among the rocks near the scene of the capture.

Part of the posse took the captured men back to Bishop while the others continued to this town. One of the men caught is Clarence Beall, cowboy, gun fighter and bad man, who figured in a shooting scrape here recently. When the posse opened fire a bullet from Nichol's gun struck a revolver in Beall's hip pocket, wounding him slightly. Reagan is armed with two heavy revolvers and a rifle and is believed to have headed for a "hole-in-the-wall" resort in an inaccessible part of the rough stone wall mountains southeast of here. It is believed he will fight to the death. His trail last evening showed that his horse was footsore and ready to quit.

**REAL STRADS AT \$5000**  
**FLOOD FIDDLE MARKET**

**CHICAGO**, May 5.—Take it from Knut Reindahl, president of the newly formed American Academy of Violin Makers, that the famous old Stradivarius fiddles exist today only in fiction. The violins in the "Stradivarius" case sold at auction, ranging well above \$5000, are the output of a Budapest violin-maker who practically controls an "ancient violin trust," according to Reindahl.

"These people don't seem to know that the old violins are over-rated that Stradivarii, Cremonese and all the old violin-makers are dead—and have been dead for a long time," said Reindahl.

"They seem to think that Strad left several carcasses of his fiddles, enough to supply the world forever."

"Now the truth of it is that if I wanted half a dozen genuine Strads, I could cable to a man in Budapest and he would send them, each one marketed at \$5000 or over, with the understanding that I would get half of whatever I could get out of them."

"Not long ago I ran across a violin I had made myself, with my label removed, a genuine Strad label substituted. It is sold for \$5000."

**COUNTIES TO ENTERTAIN  
RIVER-HARBOR VISITORS**

Four counties will join in the entertainment of the Congressional Rivers and Harbors committee, which will arrive here in June to inspect the bay and all its inlets. A total sum of \$4750 has been raised by the counties interested for the reception of the Congressmen, who will be taken over the whole of the available harbor space of Alameda and Contra Costa counties.

The Alameda county supervisors have voted \$1500 for the reception of the visitors and have promised more. Sutter county has voted \$750, Yuba County \$1000, and Contra Costa \$1500.

The committee-men will be taken on automobile tours throughout the central part of the state to look into irrigation matters.

## ASK HALF MILLION FOR PLAYGROUNDS

Cleveland to Vote on Bond Issue for School Children's Recreation

CLEVELAND May 5.—A big fight is on in Cleveland for a half million dollars

Mayor Newton D. Baker, city councilman, the Chamber of Commerce and the City School Board today, were on record to fight shoulder to shoulder to swing a \$500,000 playground bond issue to be submitted to the voters shortly after July 1.

The city already has 34 playgrounds,

16 of which are under supervision of the school board.

"We need a hundred more and we are going to fight for a playground within four blocks of every youngster in Cleveland," School Plat Director Peter Peterson announced today. Peterson recently completed a school ground survey. He reported the following conditions:

Over 41 per cent of Cleveland children are idle in their leisure time. They have no place to play. Fifty-one per cent of these are forced to play in the streets when they play at all.

"These conditions must not last," declared Peterson. Advocates of more playgrounds call themselves city recreationists. They are an organized society behind the movement.

**WASHINGTON YOUTH TO KISS "VESTAL VIRGINS"**

WASHINGTON, May 5.—There are a dozen or more young men of elite Washington Society circles who today are considered the luckiest men in the world, bar nobody. The young men today were named—their identity is not made public—as the fortunate ones on whom will be showered the kisses of a group of "vestal virgins" as a portion of the program of "The Fire Revealed" an outdoor Greek pageant which is to be given later this month under the auspices of the Drama League. Between 700 and 800 will participate in the pageant, but only these young men named will be permitted to receive the voluntary offerings of the "vestal virgins."

**WOULD RESIGN RATHER THAN LIFT S. F. LID**

SAN FRANCISCO, May 5.—"Rather than reverse my stand against lifting the lid on the Barbary Coast, I would resign," said President Max A. Kuhn of the Police Commission last night at the conclusion of the regular meeting of that body.

The matter came up with the applications of the Cave and Coppa's, two resorts, for new licenses. The applications were made ten days ago and decision is still pending. Rumors of an undercurrent of influence to be used with the Police Commissioners have been heard, but up to last night the latter have been non-committal.

**VICTIM IDENTIFIED  
AS JAMES DALY, TEACHER**

SAN FRANCISCO, May 5.—James Daly, 29 years old, teacher in the Humboldt evening school, died at the Central Emergency Hospital at 4:30 o'clock this morning following his collapse in the saloon of Latimer & Miller, 1208 Mason street, at a late hour last night. He was identified by the coroner, officiated this morning by his brother, John P. Daly, through a published description of the initials, "J. A. D." which appeared on his watch face. Although it was alleged that Daly was suffering from morphine poisoning when he was taken to the hospital, his brother stated today that he had died of natural causes.

He had been in the saloon only a short time when he was seen to fall to the floor. He was given emergency treatment at the hospital and an antidote was administered, but he rapidly grew worse and nothing could be done to save him.

"Under the guise of a club," said Governor West, "a man named W. Wilbur is maintaining a resort where men and women and young girls congregate, carousing and indulging in debaucheries."

The boy was employed as a messenger in the drug store in which the sub-station is maintained. His peculations are supposed to approximate \$150. He was released on his own recognizance. The disposition of his case has not been decided on.

Incidentally he instructed them to appropriate and put under lock and key all automobiles which might appear upon the scene with guests for the club.

"Under the guise of a club," said Governor West, "a man named W. Wilbur is maintaining a resort where men and women and young girls congregate, carousing and indulging in debaucheries."

"I have received assurance," said Commissioner W. J. Marcus, "that with the recommendation the delay was voted.

The regular contract for both granite and terra cotta work on the new building of the structure would be \$21,000 by the two bids held for consideration.

"There is less than \$20,000 now remaining in the fund for the auditorium over payment of existing contracts. A few days of delay now means weeks of delay later."

## Settle It, and Settle It Right.

Unhappy Colorado has a situation on its hands in the trouble between the miners and the Colorado Fuel and Iron Company that is attracting attention the world over. Men have been slain, property destroyed and the state put to enormous expense. At this distance from the scene and with only one side of the question—that presented by young Mr. Rockefeller—for consideration, we do not propose to discuss the merits of the controversy further than to say that we think the fuel officials made a great mistake in declining an offer made by their employes to arbitrate. Since that refusal a score or more of men have lost their lives, and when as the result of declining peaceful settlement blood is shed and persons are killed, those refusing the proposed method have a grave responsibility to answer for.

Governor Amonson, on the verge of a breakdown, has called a board to be provided by law. Press dispatches intimate that a certain element in the two houses proposes to fight any measure introduced until the members thereof have had an opportunity to find fault with the efforts made for adjustment; that a talkfest must occur before action is taken. This is wrong, reprehensible.

Peace should follow the fatal disturbances that have occurred. The way to settle the trouble is to settle it right and settle it quick. Debating what has happened will do no good, an emergency exists and Colorado's legislature should meet it. Suppose Federal troops are keeping order and preserving life and property! There is another element to be considered, the wives and children of the miners. They are the real sufferers. Delay is criminal. There should be none. It is agreed that arbitration is the remedy; pass an arbitration bill and talk about it afterward.

The prune crop may be short, the apple crop light, but the crop of candidates is still thriving with new ones blossoming daily.

The Milwaukee Leader, with some fervency, asks: "Who shall pay for the war with Mexico?" In the light of peace developments this inquiry seems superfluous.

"What's the score?" having supplanted: "How many were killed?" it looks as if the peace dove was once more on the nest.

Packers are canning peas in Oakdale, but "back yonder" the boys are just beginning to plant.

An eastern paper heads a story: "Wins Fair Bride," and then says the girl's name is Black.

Minnesota Democrats and Republicans have declined to fuse. They evidently believe fusion means confusion.

"Constitutional John" Curtin, Senator from Tuolumne, and a candidate for the Democratic gubernatorial nomination, proposes that all the Bourbon aspirants get together and pick one man to make the race. John must have wonderful confidence in his persuasive abilities.

Richard Harding Davis having arrived in Vera Cruz, we may now look for some war news as is war news.

"The American eagle has claws—eh, Senor Huerta and General Carranza?" remarks the Santa Cruz Sentinel. Nay, nay, Duncan, not claws, talons.

## General Sickles Answers Last Roll Call.

Following a career of many years during which he achieved distinction as a soldier, a statesman and a diplomat, General Daniel E. Sickles, last of the corps commanders of the War of the Rebellion, has answered the final summons and sleeps in peace at the age of 89.

He was a rugged old character, much misunderstood during the latter days of his life because of certain inflexibilities of disposition, but there is much in his history to admire, for he was brave and able. He was a born soldier, "one of the kindest men that ever struck with sword, and one of the sternest knights to mortal foe that ever set spear in rest." His fondness for military life was early developed and at 28 he was a major of the Twelfth Infantry, National Guard of New York. When the Civil War broke out Sickles tendered his services and was authorized to recruit the famous Excelsior brigade of New York, becoming its first commander. His rise in the army was rapid. At Chancellorsville he headed a division and at Gettysburg a corps. In the last memorable battle he lost a leg while conducting himself with great ability and his conduct on that decisive field placed him on an equal footing as a soldier with Hancock, Howard, Reynolds and Meade. Following the war he entered the regular establishment, first as a brigadier, then as a major-general. His service in the army ended in 1869 when President Grant appointed him Minister to Spain, where he displayed marvelous qualities as a diplomat.

But his life was not all glory and glamor, not all success and felicity. Prior to the distinguished service rendered during the secession he shot and killed Philip Barton Key, a relative of Francis Scott Key, author of "The Star Spangled Banner," for misleading his wife. Acquitted under the "unwritten law," Sickles forgave the erring woman, justifying himself by the assertion that in the denunciation following his action he could see the misery and peril from which he had rescued her. Mrs. Sickles died a few years later.

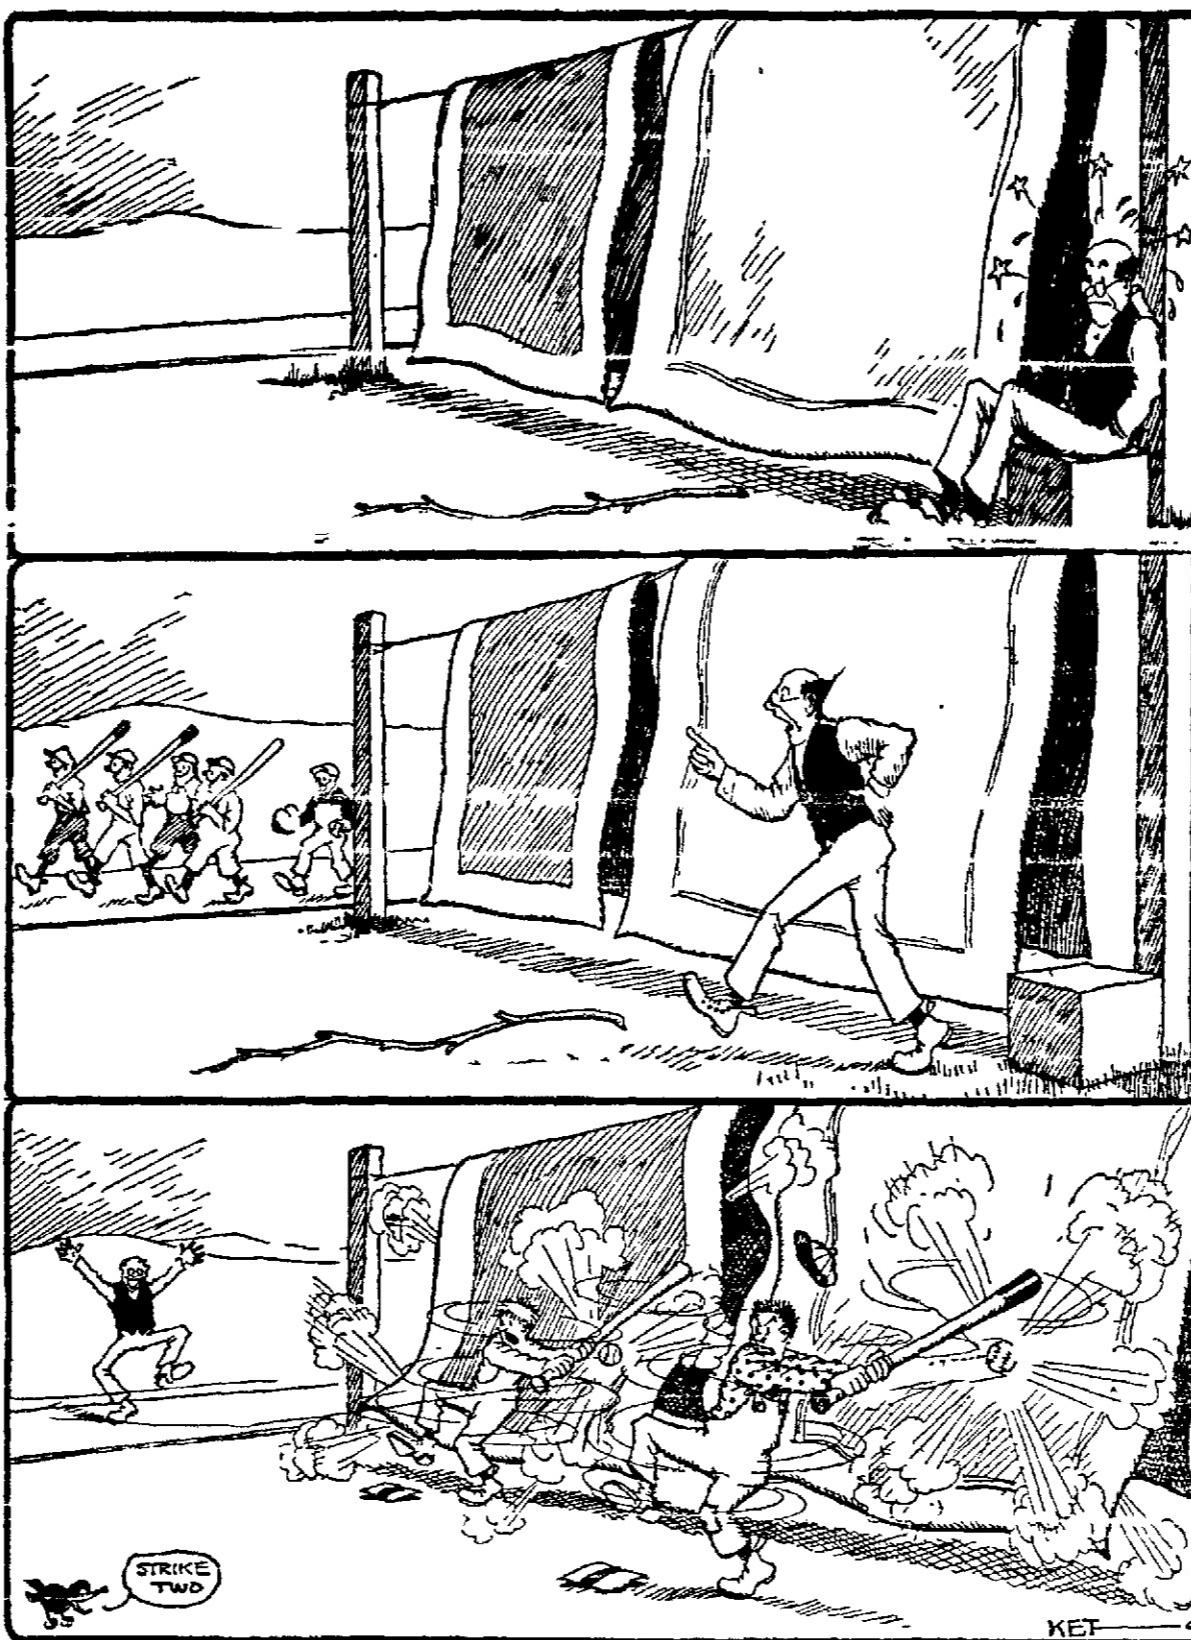

His second marriage proved an unhappy one, although it is gratifying to note that his wife, from whom he had been estranged, stood at his bedside when the end came. His latter

days were turbulent, not only because of domestic troubles, but because of debts accumulated and an accusation that he had appropriated some trust funds. Later it was announced that the loss of the money was due to poor bookkeeping and a mixing bank accounts.

But as a whole his career was that of a gallant gentleman and brave man. There are thousands of old soldiers of both armies that still revere his memory.

General Miles, retired, never rose to a greater command than that of San Antonio. All the great leaders on both sides have now passed away, but one of the greatest men who met on the three-day struggle for the "golden crown" still reigns "out yonder." But of all who participated in that conflict none earned more laurels for valor than Daniel E.

## LEAVE IT TO FATHER

-BY THE OAKLAND TRIBUNE CARTOONIST

### Auxiliary Irrigation Systems.

Ordinarily the rainfall of California is ample for the insuring of good crops. But occasionally there are what is known as "dry years" when the precipitation is less than the normal. The last two years have been such, and while the water supply of this last winter has been more than enough, had the preceding years been as wet as the general average, it is stated that because of two dry seasons, roots of apple and prune trees have been affected to an extent that both crops will not be up to standard. Reports, however, do not indicate that either will be failures and 100,000,000 pounds of prunes is the lowest estimate we have noted from reliable authority. This, with rising prices, will no doubt compensate the growers for lack in quantity. That which applies to prunes will also apply to apples.

It is also noted that in several sections of the state growers have learned a lesson from the conditions annexed to and are preparing against any possibility of repetition in future by installing irrigation systems, so that in the event of a short rainfall a supply of water may be available for use at short notice. This is an excellent idea and one worthy of emulation. It is a safeguard against shortage and an insurance against drought. It may be years before their use is demanded, doubtless will be, but when the time comes this emergency supply will be at hand.

There is a story told of Texas and the old gun carrying practice which applies in this instance. A new-comer inquired why all the men carried guns and was told that a man might live in the Lone Star state a long time and not need a gun, but when he did need one he needed it badly. It is the same way with water in California. A rancher might run his place for years without needing an irrigation system, but when the time arrived he would need it bad.

The cost of installing a well and the pumping apparatus, or of utilizing a stream, is insignificant compared to the loss sustained by lack of water at the time when water is demanded, and it is hoped that the plan adopted by a considerable number will be favored by a vast majority.

### Public Men Assailed by Irresponsibles.

Alluding to an attack made by a country paper on the senior Senator of California a short time since, one is reminded that too often are great men made the targets for those who have no proof to offer and are entirely unjustified in their assaults. For example the late Senator Bacon of Georgia served his State in public life for more than thirty years, yet when his estate was inventoried it was found to consist mainly of his law library and residence. We recall two or three instances during the lifetime of the Senator where he was attacked and accused of sinister motives, and even classed as a member of the so-called "millionaires' club."

His was not the only instance, however. President Cleveland, following the consummation of the sale of bonds for the replenishment of the gold supply of the treasury, was vilified by papers large and small, and it was said that he "had made millions" by his conduct. Yet when Cleveland died his fortune was found to be comparatively small and only in proportion to the thrifty habits of the man, much of it having been earned as a lawyer following his retirement from office.

Chief Justice Fuller was accused, even after death, of having taken advantage of his position to make money, but when his will was read no probate or accusations were pronounced, the man left only a modest sum of money, much of which had been derived from fortunate sales of real estate.

Innumerable instances might be quoted, but these serve the purpose. There ought to be honor enough in newspapers not to accuse men in public life of corruption and unfair dealing unless the proof is at hand, but there seems to be a habit prevailing of making random assertions for the purpose of appealing to the passion and prejudice of the masses, successful too often, as far as

## WHEN LONDON'S GARDENING

In a little while the whole of London and round about will be taken over by that most prolific of hardy annuals, the amateur gardener. Whether you be traversing the streets of Streatham, the by-ways of Barking, or any of the crescents or avenues that abound in the suburbs, you will find this enthusiast engrossed in his, perhaps hard, but certainly healthy hobby. You will meet him, too, in your morning train that takes you citywards.

For five and a half days of the week he concerns himself with stocks and shares, or maybe with insurance business, or pen driving or other pursuits, but at the stroke of 1 on Saturdays he makes for his suburban home to care for his rose bushes or his potato sets. Early on Sunday morning he is in his greenhouse or his few square yards doing some of the lighter kind of garden-

ing. There is no crease to be looked after, no bagginess to be avoided, and it does not matter much whether one's hands are scrupulously clean or not. The man leaves the business man or the artisan away from himself, banishes all thoughts of the hurry and bustle of his everyday routine, and brings relaxation and rest and change of environment.

It is no exaggeration to say that there are few more fascinating and instructive pastimes than the art of gardening. # REVOLT IN CONGO; WHITE MEN DIE

Belgian and Portuguese Authorities to Act, Following Report.

ANTWERP, Belgium, May 5.—Confirmation of a report of a native revolt in the Portuguese Congo and the killing or twenty white men, including some Protestant and Catholic missionaries, has been received here.

Many other missionaries have fled from the affected district, according to dispatches from Boma, Belgian Congo.

The natives are led by a chief from San Salvador. The governor of Angola attacked them, but was forced to retreat and the natives continued their march toward the left bank of the Congo, burning all the stations on their way and putting the small гарнизон to flight.

Passengers who arrived from the Congo declared the situation in the Portuguese colony desperate and that the revolt would be extremely difficult to suppress. They said the Belgian Congo authorities were rushing troops to the frontier when they left, in order to put down the rebellion before it got into Belgian territory and causing a rising there.

## Is Prize Baby Wins Trophies

RAYMOND GROSSE

A many of the baby beauty contests little Raymond Grosse has captured

silver loving cups at a number of baby shows where he was among the most robust and attractive youngsters.

Hundreds of beautiful babies entered the baby exhibition conducted recently at a local theater, where it was difficult to select the prize beauty.

In the Oakland playgrounds dozens of pretty babies are seen daily playing in the sand boxes, where the little folks pass the greater part of their day.

**GIRLS MAKE ARTIFICIAL FLOWERS FOR DRESSES**

About 1500 pink and white roses and carnations have been manufactured by the children of the De Fremery Park playground for decorations on the girls' costumes to be worn at the annual Mayflower pageant, to be held Saturday morning in Lakeside Park. Miss Bernice Chambers, supervisor of the girls' division of the De Fremery Park playground, stated yesterday that about 150 colonial costumes had been made for the girls' division. These also designate the covered canals and canes which will be donned in the "snow dances." All the robes will be made on the grounds.

These girls are unusually interested in hearing for the first time which it is believed, will surpass the past affairs given under the auspices of the Oakland playground commission.

**STUDENTS CORRESPOND WITH SPANISH PUPILS**

Correspondence has recently been effected between the Spanish students of the Manual Training and Commercial High school and the students of Salvador Central America. Several letters have recently been received from the pupils which have been read by the pupils here. All the letters were written in English, but the "Poli" girls and boys

replied in Spanish.

Through these communications, the correspondence not only acquire a practical knowledge of the language but cultivate many friends. Souvenirs, datus and general news of importance are exchanged, which make the work interesting.

## ANTI-KAMMIA TABLETS STOP The Pains of Sciatica

Dr. E. C. Underwood says that there is no expression of neuralgia which is more distressing than that known as Sciatica. The cause of the pain is that the nerve is exposed to cold and dampness. One of the most common causes is rheumatism; indeed this is so often the cause that some writers include sciatica among the varieties of rheumatism.

The treatment includes remedies to counteract the cause of the disease, as well as measures looking to the relief of pain. Whatever treatment may be employed, two things must be kept in mind: the patient must be kept as free from pain as possible and be kept as quiet as possible. One or two Anti-Kamnia Tablets should be given every two or three hours, and the patient must be warned against going out in inclement weather.

Anti-Kamnia Tablets may be obtained at all druggists in any quantity, 100 worth or more, at 25c per tablet.

In Headaches, Neuralgias, and all Pains, they give prompt relief.

P. S. Have you Eczema? Use A-K Salve.

## BUYING PRICE TO INCLUDE BONDS

Water District Purchase Not Assumption of Obligation, Says Pardee.

That the metropolitan water district will not have to assume responsibility for Peoples Water Company bonds was stated today by Dr. George C. Pardee, president of the Metropolitan Water District League. According to Dr. Pardee the bondholders must be satisfied with money paid to the company for the property by the district. This amount will be fixed by the state railroad commission.

Dr. Pardee said: "The water company bond is, of course, in effect a mortgage against the property, and, ordinarily, the purchaser of the property would have to assume the mortgage, but in this case, if a bondholder should refuse to accept the terms of the Havens option and satisfy himself with his share of the purchase price paid by the district, he could be forced to such acceptance by condemnation proceedings."

The public utilities act, as I read it, makes the valuation fixed by the state railroad commission final in proceedings of condemnation under eminent domain. The bondholder is protected to the extent that he may be heard in court, but if he is made a party to the suit the decree of the court is final. This makes it necessary that the bondholder accept the commission's appraisal one way or the other.

### HAVENS OPTION PLAY.

"The Havens option purposed to sell to the district the water company property at a price to be fixed by the state railroad commission, and Max Thelen, member of the commission, stated in a recent address that the commission in fixing that price would be concerned only by the report of the engineers on the actual physical values of the property and its earning capacity and would have nothing whatever to do with stocks or bonds."

"Of course, we don't know what price the commission will name, but it is not at all impossible that it will be less than the indebtedness of the company, represented by outstanding bonds. Should this be the case the bondholders will have to make the best of it."

"The claim of the bondholder is good only to the extent of the value of the property against which it is issued and this is to be determined by the state railroad commission."

### WHAT BONDS REPRESENT.

The underlying bonds of the Peoples Water Company amount to \$5,600,000. Of this sum \$2,000,000 was issued by the old Contra Costa Water Company against 7000 acres of land, \$1,000,000 represents Contra Costa general mortgage bonds; \$1,500,000 was issued by the Oakland Water Company \$500,000 by the Thompson system in Alameda, and \$1,000 by the Berkeley system.

The total authorized bond issue of the Peoples Water Company is \$29,000,000 of which \$5,600,000 is said to have been issued to cover the cost of the new plant or \$6,418,466 general mortgage bonds are in the hands of the public. \$6,500,000 are in the hands of the Havens option, \$1,000,000 and \$1,400,000 remain unissued in the treasury. The notes represent the floating debt of \$3,635,466, making a total indebtedness of \$16,881,466.

### IF OPTION IS DECLINED.

"Should the Havens option be declined by the district we will proceed with the plans now carried out to reorganize the finances of the Peoples Water Company," said W. W. Garthwaite, who, with P. E. Bowles and John S. Drum constitute a committee recently appointed to refinance

Dr. Pardee yesterday announced the following as members of the joint committee which will analyze and control the water district law: W. P. Edwards of Alameda, Mrs. Sarah C. Pendleton of the Elwell Club, Ben H. Pendleton of Oakland, J. J. Johnson of Berkeley, H. A. Johnson of the Santa Fe Improvement Club and E. K. Taylor of Alameda.

Magner Brothers' Paint Plant  
Badly Damaged by Early  
Morning Fire.

SAN FRANCISCO May 5.—A series of explosions following the turning on of an alarm fire for a fire in the factory of the Magnar Brothers Paint Co., 97 Valencia street at Telegraph this morning, caused a loss of \$5,000.

At different parts of the second floor, as the flame licked their way through the ceiling, the fire fighters battled cleverly with the blaze and in consequence prevented its getting to the basement, where the bulk of the paint and varnish was stored. The blaze was confined to the ceiling of the first floor and the second floor and amounted approximately to \$5000. According to the manager a spark from a telephone wire must have been responsible for the blaze unless it originated through spontaneous combustion. He maintains that all of the electric power

The blaze was confined to the ceiling of the first floor and the second floor and amounted approximately to \$5000. According to the manager a spark from a telephone wire must have been responsible for the blaze unless it originated through spontaneous combustion. He maintains that all of the electric power

was cut off, but he asserted that the premises were not in danger of exploding again, and that the cafe would remain open as usual.

With this report in mind Mr. Robert Kern, manager of this popular cafe, denied the rumor, relative to the facts in the case and made the assertion that there was no truth whatsoever in the rumor that was prevalent. He was emphatic in his statement that the Forum would continue exactly as at present—there were no negotiations pending and the owners and management wanted it directly understood that they were here to do his best exactly as in the past without the slight contemplation of change in mind, believing that the Forum has established itself as

such a place of interest.

MISS BLANCHE GALEY, WHO WILL BE MARRIED THIS EVENING  
TO HENRY BERCU.

MONG interesting things told at the Blake's Seminary reunion were stories of war and adventure in South Africa—Mrs. Garthwaite was the heroine. Of the girls who went to Blake's in the 60's and 70's "Gussie Lowell" has known the most contrast and color in her life.

There were many accounts of travels and every-day living, last Thursday, when the alumnae met in Moesburg Park to recall their school days and events of the years between. There was much interest in Mrs. Hobart's stories of life on her ranch. She was Emma Bidwell, daughter of old General Bidwell, who owned half of Butte county, and her days have been passed on the famous Bidwell ranch, where it was news to her friends to hear there are cotton fields like those of Mississippi, and rice fields of the Orient, translated.

Mrs. Garthwaite told of the Jameson raid and exciting times of the Boer war, when she lived in Nigel Jet, a suburb of Johannesburg, and had to bury her household treasures in an ant bear hole and leave her home to safety at Durban Naval, which was beyond the danger zone on the coast. Mr. Garthwaite was with John Hays Hammond in South Africa, so they were rather in the thick of things.

There was a memorable day during the Boer war when the Garthwaites were living beyond Mafeking. It was the day the Canadian troops marched by on their way to the front. They sang as they marched the joyous familiar camp songs of America that made the Garthwaites inexpressibly homesick in the far-away alien country, with its tumult and terror of war.

There were many remembrances of the brilliant dancing *Chatter* girls, Mary, who is Mrs. John Orr; Emma, now Mrs. Shafter Howard, and Sarah Shafter, who is Mrs. Goodrich, mother of a bride of the month. Also Mary Wall, still charming as Mrs. Glasscock, who was one of the belles of Blake's Seminary. And then are still others to remember and more experiences to tell when the alumnae meet again.

**PLAN LARGE AFFAIR.**

Miss Caroline and Miss Jean Hawley will be hostesses Wednesday afternoon at one of the large bride parties of the season at the Hotel Oakland. There will be twenty tables of bridge in the attractive room of the hotel, and although so many guests will be entertained, the affair will be an informal one. There will be no receiving party and the guests will be members of the younger sets in society, most of whom know one another well enough to banish formalities.

**TO TOUR EUROPE.**

Among departures of this week will be Mrs. Alice Samuels and her daughter, Mrs. Clarence Cryer, who will leave Thursday for New York en route to Europe. They will call on the many steamers for the Mediterranean, and after a tour of Italy will visit Germany, Switzerland and France. They are due in England later in the summer and they will sail for America early in September after a delightful itinerary that will include Scotland.

**PLANS CHANGED.**

The decision of Mr. and Mrs. E. M. Smith to remain at "Fresdeau," their summer home on Long Island, has affected plans for the wedding of Mr. Smith's niece, Miss Frances Calkins of Berkley, and John Case Jr. of Chico. It was to have taken place at "Arbor Villa," but in the absence of Mr. and Mrs. Smith, the wedding will be held at the Berkeley church, June 8, at one of the Berkeley churches, with only relatives present. The young couple will go to Chico to reside.

DIGGS' VERSION  
HEARD FROM  
STAND  
STAND

Former State Architect Testifies in Defense of Ida Pearring Charge.

SAN FRANCISCO, May 5.—Young L. Diggs took the witness stand in Superior Judge Cabaniss' court this afternoon and gave his version of the episode in which 17-year-old Ida Pearring claims to have been attacked. The former state architect (opposed Diggs) and ill at least on the stand.

John J. Crawford, proprietor of the hotel, George Williams, his manager, R. B. Kay the night clerk, Arthur McCullough, the bellboy, and Florian E. Fischer, the salesman, who has already testified for the prosecution, were called to the stand during the first hours session.

McCullough, the bellboy, who also ran the elevator, was the most important of the witnesses. He said it was he who served Miss J. Gilligan to digest with Diggs and Ida Pearring their drink. He remembered that Diggs had taken water, but could not recall what drinks Gilligan and Miss Pearring had imbibed.

"You did not see Diggs insert any mysterious powder into the liquor served her, did you?" asked Attorney Ed McKenzie, who was examining for the defense.

"No, sir, I did not," replied the witness.

McCullough also stated that the party remained in the pink room adjoining the bar for about 15 minutes and were there throughout the entire time that he took the order went for the drinks and served them. He could see them through the mirror over the bar.

Miss Pearring, he affirmed, was able to walk into the elevator, appeared perfectly sober and left the car with her male companions on the tenth floor. "Mrs. Gilligan's room was located. The latter, he said, was very much intoxicated.

Later Gilligan and Diggs were taken to the tenth floor to room 102, which had been assigned by Clerk Kay to Gilligan, who had registered for a friend, saying that he was going to give up his room and would need another one.

Karl Dresner Alleges Brother of Charles Becker Subornated Perjury.

NEW YORK, May 5.—Karl Dresner, now an eyewitness to witness for the four slayers of the gambler, Herman Rosenthal, in their effort to procure a new trial, gave out what he described as a confession yesterday in the rooms where he is awaiting trial on a charge of perjury as a result of his testimony on behalf of the gunmen.

In his confession made forty-eight hours before Charles Becker, the former police lieutenant, was placed on trial for the second time as the instigator of Rosenthal's murder, Dresner, involved in Becker's brother, John Becker, who is a police lieutenant and two attorneys, Charles Becker's trial will begin Wednesday. Dresner told how, eight days before the gunman were executed, he was approached to become a witness for them. He made an affidavit which he supported with testimony before the Supreme Court Justice Goff in effect exonerating the doomed men and implicating several underworld characters, witnesses for the state in Becker's first trial and who will probably testify again.

### U. S. RESERVE BOARD NAMED CALIFORNIAN IS APPOINTED

U. C. Professor Chosen  
as Economist of

#### BULLETIN.

BOSTON, May 5.—Richard Olney has addressed a letter to President Wilson formally declining the appointment as governor of the federal reserve board of the new banking system.

WASHINGTON, May 5.—After four months of waiting while President Wilson carefully sifted hundreds of names, the business and financial world today learned definitely that the following men had been chosen for the federal reserve board which will put into operation the nation's new currency.

Richard Olney, of Boston, former secretary of state and attorney general of the United States under President Cleveland.

Paul M. Warburg of New York, member of Kuhn-Loebs & Co. and life-long student of foreign banking systems.

W. P. G. Harding, president of the First National Bank of Birmingham, Ala., and one of the leading bankers of the South.

Harry A. Wheeler, vice-president and director of the Union Trust Company of Chicago and until recently president of the United States chamber of commerce.

Dr. Adolph Caspar Miller, professor of finance at the University of California, and now assistant to Secretary Lane of the interior department; a political economist and writer on economics and finance.

#### EX-OFFICIO MEMBERS.

These men, together with the secretary of the treasury, William G. McAdoo, and the comptroller of the currency, John Shultz Williams, who are ex-officio members, have been selected to compose the federal reserve board.

White House officials declined to say when the nominations would be sent to the Senate, "but we are awaiting further word from Mr. Olney as to his acceptance." It was feared by persons close to the White House that he would not accept on account of his advanced years.

Mr. Olney had been chosen for governor of the board and it is not known as yet who would substitute him.

The four other men, it is understood, have all accepted. While Mr. Wheeler is a banker, he has had an intimate connection with the industrial and commercial world. Mr. Warburg has made a life-long study of German and French banking methods and knows finance from a first-hand connection with the greatest financial centers of the United States. Mr. Harding is regarded by the President as an unusually able man of broad view and remarkable ability. He is looked upon as one of the leading bankers of the South.

Dr. Miller is a trained economist and a long a writer and student of finance.

This personnel follows the President's original idea of securing two bankers, Warburg and Harding; a businessman, Mr. Wheeler; an economist and student of finance, Dr. Miller; and a lawyer and business-man, Rich-

ard Olney.

The treaty provides Colombia shall enjoy free and in perpetuity free passage through the Panama canal for her troops and war ships and stipulates also that six months after the exchange of ratifications the sum of \$25,000,000 shall be paid to Colombia.

BOGOTA, Colombia, May 5.—The treaty between Colombia and the United States settling the long standing dispute over Panama, passed its first reading in the Colombian Senate today.

The Colombian-American Panama treaty was presented to the Colombian Congress May 3 for ratification.

It was signed in April by representatives of the Colombian State Department and T. A. Thompson, the American minister at Bogota. The convention has not yet been sent to the Senate at Washington.

The treaty provides Colombia shall enjoy free and in perpetuity free passage through the Panama canal for her troops and war ships and stipulates also that six months after the exchange of ratifications the sum of \$25,000,000 shall be paid to Colombia.

### REPUBLICANS WILL RALLY TONIGHT

Controller Prendergast and At-  
torney J. R. Scott to Be  
Speakers in S. F.

SAN FRANCISCO, May 5.—Republicans will gather in Scottish Rite hall tonight for one of the greatest rallies of the party that has ever been held in the state. It will be important in that it is the expectation of the leaders in the position of eminence which was threatened two years ago by the launching of a third party into the field. So great has been the influx of politicians from all parts of the state that together with the local aggregation which is expected, arrangements are being made for holding an overflow meeting.

William A. Prendergast, controller of New York City, one of the Progressive party founders and nominator of Roosevelt at the Chicago national convention two years ago, will have a message to deliver to the Republicans of California. Attorney Joseph R. Scott of Los Angeles, probable standard bearer for the office of governor, will also be a speaker, as will State Senator A. E. Boynton, who was formerly a Progressive.

#### SCOTT GREETED.

Scott arrived in the city this morning and was met by members of the Young Republican League and invited to his hotel. He was a guest at luncheon in the Commercial Club. Prendergast spoke informally at the luncheon, not touching upon politics. Both men are brilliant speakers. Scott is well known on both sides of the bay, where he has frequently appeared as speaker at public gatherings during the last two years.

Scot was received by a delegation from the Republican State Central Committee. Controller Prendergast was taken on a sightseeing tour of the city yesterday afternoon. He visited the exposition grounds and

the exposition "should be the greatest of its kind the world has ever seen." He was amazed at the amount of work that has been done and the favorable showing that the fair will open.

#### DOG ATTACKS.

That a dog, angered when her child teased it, bit the youngster, was reported to the police last night by Mrs. J. Howey, 1229 Eighty-ninth avenue. The police shot the dog, which was owned by E. Herbert, a neighbor.

NEW YORK, May 5.—After being confined in a foul dungeon, where he fought rats, and was marched at the point of the bayonet.

Prince, Abdallah Sada, a Syrian-born American, was deported by the Haytien authorities.

This was the story he told when he arrived here yesterday. He is on his way to Washington to complain of his treatment to the state department. It was "for political reasons." Sada said, that he was exiled after soldiers had thrust him into prison. A trial was refused him.

It was said that all his possessions in Hayti, valued at \$15,000, were confiscated by the Haytien government on the theory that he was an accomplice in the slaying of President Leconte. He was accused, he said, of complicity in the dynamiting of the national palace in Port-au-Prince in August, 1912, when the president and many soldiers were killed.

He came to testify and to view the effects of the fight.

#### PROGRESSIVES OPPOSE CONSTABULARY.

It was stated early today that the progressives of the session would attempt to block the enactment of a law providing for the creation and maintenance of state constabulary, but their strength was considered rather negligible, due to the coalition of Democrats and Republicans of both house and senate. Labor leaders struggled to have a speech read into the records of the house denouncing the state administration for its conduct during the strike, but all thought of possible impeachment proceedings against the governor apparently was abandoned.

Colonel Lockett said he was taking up the matter of distributing his forces throughout the strike district. His own headquarters he thought would be at City Hall. The new commander of the federal forces in the state said he would not decide upon a definite plan of action until he had been fully informed as to the situation.

# Gallant and Watson Draw Attention to Coming Lightweight Card

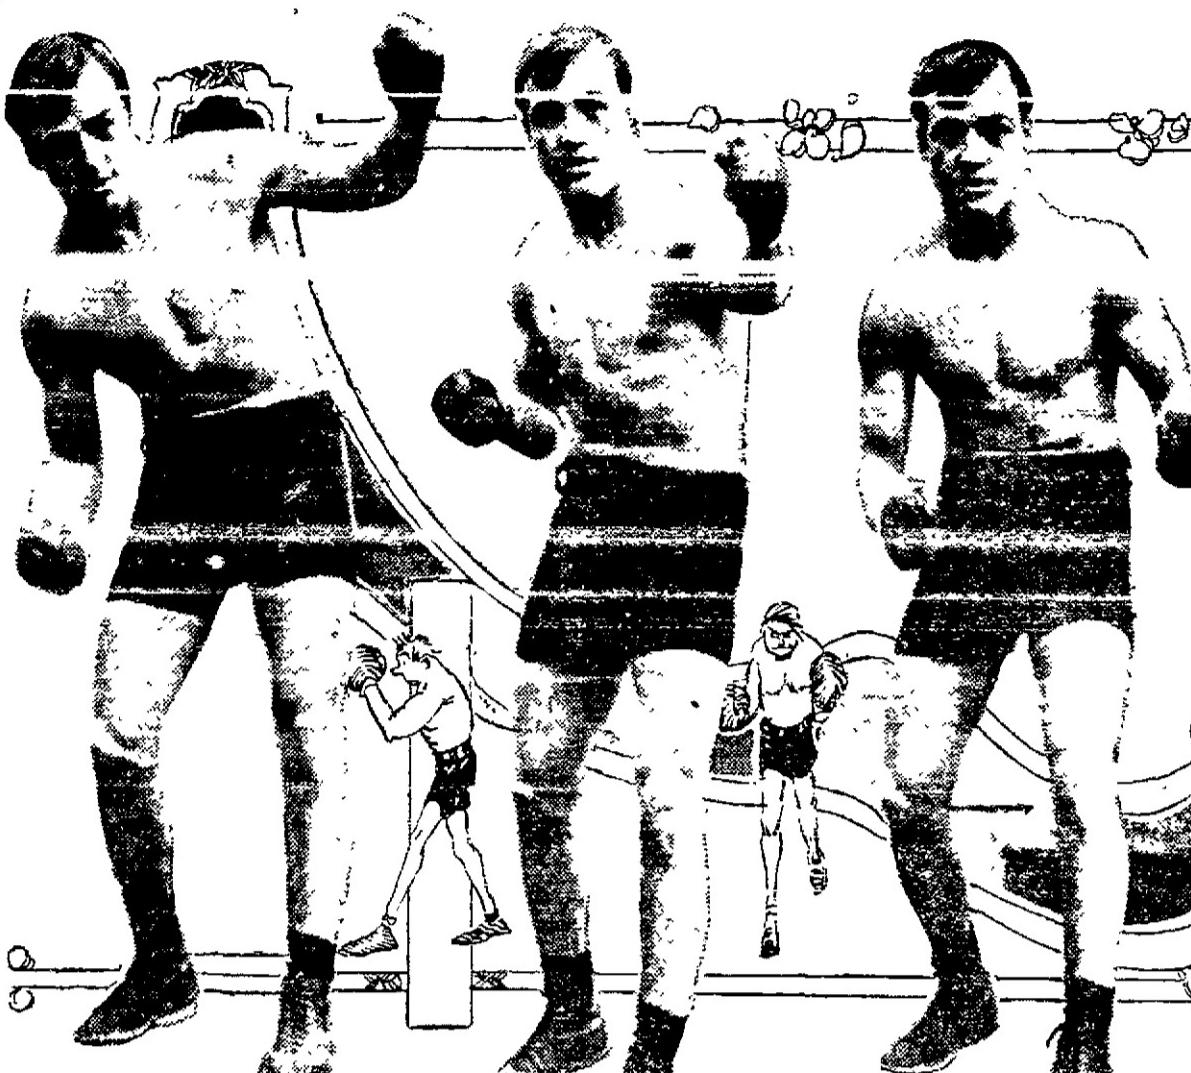

FITZSIMMONS OUT FOR FEATHER HONORS QUICKLY

BETTING ODDS SLIGHTLY IN FAVOR OF RED WATSON

Rohan's Youngster in Line for Good Matches if He Beats Vieira.

Gallant and "Red" Are Having No Trouble in Making 135-Pound Limit.

Characteristic fighting poses of the New Englander, Gilbert Gallant, the "biggest" small man among the lightweights. This is the youngster who will try to outslug "Red" Watson Friday evening in a twenty-round bout.

Battling Levinsky will have nothing on Willie Fitzsimmons during the next three weeks. Three four round, one six round and one ten round bouts will be his program for this month.

His first go is four rounds in Daly City with "Red" Wolfe, a man to be reckoned with from the east. Next, Willie will meet Jack Bratton in the semi-windup for six rounds in Stockton. Both before and after his ten round bout with Manuel Vieira, which is scheduled for the next Wheelmen's card, Fitzsimmons will get by "Red" Watson.

Manager Jimmy Rohan's confidence that Fitzsimmons has championship ability has been born out by his record as champion for his boy. After he has these scalps in his belt, which Rohan is confident he will; the Wheelmen promoter will match Willie with Kilbane.

Of course, the writer does not think Jimmy will get by "Red" Watson.

According to Frank Purcell, manager of Johnny O'Leary, the Seattle scrapper who took the master out of Mystery, he is now in his 10th month of attempt to make one weight under the lightweight limit. In other words Johnny now considers himself a full fledged lightweight.

O'Leary has grown so fast during the past year that he finds that it is difficult to make weight for the featherweights.

Purcell says Johnny will get plenty of work as a lightweight for he is wanted in Butte, Salt Lake City, Denver, San Antonio and New Orleans. He would dearly like to box in Stockton at his present weight but there is no chance at present.

When "Musky," former Oak of others and enlisted Kromek, the millionaire chauffeur, tandem at the Wheelmen's show on the 19th, the bout should furnish considerable entertainment for the fans.

Everyone knows "Musky" and everyone who knows him admires his grit.

He is a good example to the conscientious worker who still stands guard the Oakland baseball training quarters and that will stand him in good stead.

George Mason will leave for Stockton today where he will have ten rounds with Herb White on the 19th. George's hand is still slightly swollen but he expects to be back in the ring for his bout with White.

Kid Nahiero and Tony Frietas will also decorate the ring at the next Wheelmen's club show. These boys are both good ones and should do some fast mixing.

## ROWING DEVELOPS IN MANY WAYS

According to Coach Hiram Connibear, who has developed wonderful crew machines for the last few years at the University of Washington, rowing is one of the best branches of athletics for developing the body's strength.

"Rowing is an ideal method of physically and mentally developing a young man or woman. The chest is expanded, the lifting muscles of the arms, legs and torso are strengthened, and a decision in a crisis becomes second nature to the oarsman, for his must 'keep his head' during a boat race."

"If in a crew he must act with his fellows, for upon rhythmic co-ordination success depends, then he develops in such a race so that he develops a sense of how to meet an emergency, a faculty useful to him then and invaluable in other days in dealing with exigencies which may arise."

"Rowing in boat racing is calculated to stimulate the courage as nothing else can. To relax during the race to cease doing your best, no matter how tired you feel, and of all interested people to remain calm, is a mark of a 'quitter' despised above all others."

"A man who will 'quit' in an athletic contest will 'quit' in any other test which comes to him during life's journey. Rowing aids to overcome such a tendency, as he cannot give up without being detected instantly and is obliged, if he would do so, to return to the water and extend himself to the limits."

"A very few experiences of forced endurance will give him confidence in his own strength."

Also an oarsman evades self-indulgence. He has to live cleanly, for a slip from the path that is straight and narrow will be his undoing. Tobacco and alcohol, the twin plagues of a war hour, plus food and plenty of healthful sleep must be his guide to conduct."

The effects on the woman of rowing are hardly less beneficial. Through she acquires a grace of movement, becomes self-reliant, and, while retaining respect for the parts on the water, is able to meet them resourcefully and with decision."

## AMATEUR BASEBALL

The Ambrose Tailors of Healdsburg defeated one of the fastest teams in semi-professional baseball when they downed the Barney Franklins of San Francisco by a score of 11 to 7. The Barneys' first two were the first to score. In the first inning, the Tailors scored three runs. Leahy went on. Powers to Furrier and Garcia singled, scoring Fussell and Wettzel. Powers came right back and scored two in his turn. Powers walked, Wettzel singled, Furrier singled, Powers going to third. Furrier stole second. Both runners scored when Blitz, late of Stockton, hit a long triple to right center.

After the first inning it was a one-

their way to victory. Starasinch, of Ambrose, was in great form and should have had a shutout but poor support was against him. The Tailor boys made six errors.

The feature of the game was the hitting of Wettzel, Furrier and Baldwin. Two of the longest triples seen in the park were hit by Wettzel and Blitz and both came when most needed.

Ambrose was in a crippled condition as First Baseman McDougal, Third Baseman Maher and Outfielder Wilson missed the ball. Miller had played a good game in left field.

Confessing on the witness stand that she had purposely consumed too much liquor in order to picture to her husband what a spectacle he made of himself when he imbibed too freely, Mrs. Frances Martin, wife of Harry H. Martin, of the Alco Apartments, Oakland, earned for herself and her spouse their release in Police Judge Shortall's court in San Francisco.

The pair were held over Saturday for disturbing the peace by Patrolman G. Ball of the Bush street station. The officer was greatly pained, as he claimed that his helmet had been knocked off and broken by Martin in resisting arrest, and he testified to the noise made by the couple when he approached them at the corner of Pine and Polk streets, at a late hour last night.

Both he affirmed, were feeling rather merry as the result of over-indulgence in liquor, and when he was asked if he had come to see the situation, and encouraged by the court, declared that she would tell "nearly everything that occurred."

"My husband began drinking," she explained, "and when I protested to him he told me it was none of my affair, and all I could do was to say, 'Well, all right, I'll show you how you look.' Then I think I must have taken too much red wine trying to make good on my boast."

The court dismissed the case on Martin's promise to pay for Policeman Ball's shattered helmet.

## CONGRESS WOULD ABJOURN IN JULY

## FATHER OF SUPERVISOR BRIDGE PASSES AWAY

In the Senate the fight over the tolls repeal bill can be said hardly to have started, as the Senate Select Committee on Interstate Commerce committee, but several hearings are yet to be given to interested parties, and a report is not looked for at least ten days. The Senate, however, is to start a debate of six weeks or two months on its proposed drastic provisions. If these predictions are correct, consideration of these two subjects alone would keep the Senate in session still after July 1.

**MAY BE AUGUST 1.**

Although Mr. Murphy told the press that the program can be concluded by July 10, other Democratic leaders were not inclined to share this view, and said that if the Panama canal bill, the anti-trust bill and the other legislation are to be taken care of, a conference with President Wilson is necessary that in his opinion the House can complete its work on the necessary appropriation bills and the other legislation which the President has signed.

The Senate, according to reports, discussed the possibilities of adjournment. It came to no decision, however, except as to the adjournment of the anti-trust bill, which was named by Chairman Keay to the other House leaders on this subject, and on the measures that must be passed before the session ends.

**THE SENATE.**

WILL ASK FOR GENERAL COURT-MARTIAL SESSION

DENVER, May 5.—Announcement was made yesterday that General John Chase shortly would ask the governor for authority to convene a general court-martial to try cases in line with the findings of the military commission which investigated the Ludlow battle and fire.

When informed of the intention of General Chase the governor stated that he would comply with the request.

It seemed probable, however, that the military commission will be dismissed pending in the civil courts for law violation incident to the strike, would not be brought to trial until the public mind relaxed from the intense excitement of the last two weeks.

OAKLAND OPERA CLUB ORGANIZED

Is Designed to Foster Grand Opera in City and Aid Young Singers.

The Oakland Opera Club, an organization designed to foster the opera in Oakland, was formed last night at the Key Route Inn. Maurice R. Michaels, of Sherman, Clay and Company, was chosen as president, while Walter L. Gough, a violinist of Oakland, was made vice-president. Harry Parrish was elected secretary and treasurer. A committee to draw up a simple constitution and by-laws will be appointed at the next meeting of the club which is left to the discretion of the club.

An entertainment committee, to consider concerts and the introduction of new singers in Oakland and of young vocalists living in the vicinity of Oakland who have not had the opportunity to make a public appearance, was appointed. Lloyd Taylor heads the committee and has for his assistants H. L. Pierson, H. T. Eddo, Mrs. Maurice M. Michaels and Mrs. C. N. Jones.

Ralph Errolle, leading tenor of the Chicago Grand Opera Company, at present spending the summer at the Key Route Inn, has volunteered his services to aid the club in any possible manner and it is likely that the musical direction of the new organization, for the summer months at least, will be placed in Errolle's hands. The purpose of the club is formed to foster grand opera in this city and lends its aid in giving young singers an opportunity to be heard. It is planned, at present, to hold several summer concerts and to outline an extensive campaign for the winter months. Young singers will be heard and voices tried out at set dates. If any voices of promise are discovered, the club, when fully organized, plans to lend its support to furthering the musical education of the aspirant. In case any voices of exceptional quality are discovered, Errolle has promised to give the young singer his influence with the head of the Chicago Grand Opera Company in the interests of the find.

UTAH SOCIETY TO MEET.

LONELY WOMAN MAKES ATTEMPT AT SUICIDE

DANCE OF EAGLES TO BE A BIG ATTRACTION

SAN FRANCISCO, May 5.—Distressed and lonely by reason of the absence of her husband who had gone to Petaluma in search of employment, Mrs. Jean Vaughn, a young woman of 25, attempted suicide at her apartment, 344 Jones street, at 7 o'clock this morning. Mrs. Vaughn swallowed a mixture of permanganate of potash and wood alcohol. She was discovered almost immediately and removed to the Central Emergency Hospital. During the run in the ambulance, Steward Brokowsky administered an antidote and thus her life was saved.

RICHMOND, May 5.—The "Eagles" dance at Maple Hall in San Pablo on the evening of May 4 is scheduled among the joy-rovers as an event worthy of notice and something to be looked forward to with pleasure.

That the hall will be packed on that evening seems assured, as the committee has spared no expense in giving publicity to the affair and in taking those steps which will assure a very successful affair.

ARRESTED ON CHARGE OF OAKLAND BURGLARY

Richard Thompson, wanted on a charge of burglary, was arrested last night by Detectives Green and Gallagher and is being held on a charge of entering the home of Mrs. Laura Vargas, 365 Wood street. The house was entered through a back door, tracks seen in snow and jewelry being removed. The suspect was arrested in San Francisco and brought to Oakland for examination.

Refusal on the part of Mrs. Carrie L. Mitchell to close a deal whereby she was to exchange property at Twelfth and Myrtle streets for fifteen United Properties Company bond certificates is the cause of a suit being filed before Superior Judge T. W. Morris by C. P. Gross as plaintiff. Gross alleges that after the affairs of the Properties Company became involved Mrs. Mitchell backed down on the proposed trade. He asks that she be forced to carry it through.
